

PRODUCT INFORMATION

EXTRANOL GEAR LUBE 80w-90 GL-4

Overview

EXTRANOL GEAR LUBE 80w-90 GL-4 is a premium multi-viscosity mineral gear oil specifically formulated for manual transmissions, rear differentials and other gear cases that recommend using a GL-4 lubricant. This product offers high oxidation stability and performs well under high heat conditions and low temperatures.

EXTRANOL GEAR LUBE 80w-90 GL-4 contains sulfur-phos EP additives at lower levels than our standard and premium gear oils for use in situations where limited slip performance is not needed or where lower sulfur-phos levels are a requirement. Suitable for use in most manual gear box applications requiring 80w-90 GL-4 Fluid.

Typical Properties

PRODUCT CODE 602

Viscosity, cSt/40°C 160

Viscosity, cSt/100°C 15.2

Flash Point, COC °F 450

Pour Point, °C -27

Color <3.5

API Gravity 27.5

Density lbs/gal 7.4

Rust Test Pass

Channel Point -28

Copper Strip, Class 1

Foam Test Sequence I 0/0

Foam Test Sequence II 10/0

Foam Test Sequence III 0/0

MADE IN USA.
